

TreeCOVER™

by Cove

Excellent for newly planted
shade & street trees.

Zip heavy-duty bag around tree, fill with water, and let TreeCOVER™ drip water to your tree for up to nine hours.

- Filled with water - 30" high x 18" wide (at base)
- Single bag holds 15 gallons of water.
- TreeCOVER™ can be zipped together and used in pairs for larger trees. Two bags zipped together hold approximately 30 gallons.
- Single bag fits 1" to 4" diameter tree. Two bags zipped together fit 8" diameter tree.
- Made of heavy duty green polyethylene with nylon webbing poly straps and green nylon zippers.
- Two water release points per bag.
- Bag is empty in 5-9 hours.
- UV stabilized to withstand exposure to sunlight.
- Fill opening fits up to 3" diameter hose.

BENEFITS:

- Reduces plant shock
 - Easy to use
 - 100% water absorption
 - Saves time watering trees
 - Deep water saturation with every use
 - Provide continuous watering for newly planted trees
 - Fill as needed
 - Encourage deep root growth*
- *Especially valuable for new plantings, soaking before digging or during summer droughts.

LIMITED WARRANTY:

Two year limited manufacturer warranty from the date of purchase against defects in material and workmanship.
