

Spray Away

Caring Control for Pets and Wildlife

5265

Features

- An electronic valve releases 3 seconds of water from an attached garden hose
- Spray Away pauses for 8 seconds after firing before resuming sensor operations
- Water spray is broadcast up to 35 feet to protect a 1,000 square foot area
- Adjustable sensitivity detects nuisance animal motion from as far away as 35 feet
- The sudden noise, motion, and water spray scares nuisance animals away
- Quick to assemble with no tools required
- Screw top onto base and attach to hose
- Safe to use in areas where children and pets play

Advantages

- Randomness and unpredictability in spray prevent animals from growing accustomed to the spray of water
- Sudden noise, motion and water spray do not harm animals
